

Article 7 Enhanced Nurse Licensure Compact.

Section 34-21-120

Findings; purpose.

(a) The party states find and declare all of the following:

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.

(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of nurses and the use of advanced communication technologies as part of a national health care delivery system requires greater coordination and cooperation among states in the areas of nurse licensure and regulation.

(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex.

(5) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

(b) The general purpose of this compact is to achieve all of the following:

(1) Facilitate the responsibility of each state to protect public health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.

(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing the practice of nursing in each jurisdiction.

(5) Invest all party states with the authority to hold a nurse accountable for satisfying all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensing requirements.

Section 34-21-122

General provisions and jurisdiction.

(a) A multistate license to practice registered or licensed practical nursing issued by a home state to a resident in that state shall be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical nurse, under a multistate licensure privilege, in each party state.

(b) A state shall implement procedures for considering the criminal history records of applicants for initial multistate licensure or licensure by endorsement. The procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining the criminal history record information of an applicant from the Federal Bureau of Investigation and the agency responsible for retaining the criminal records of that state.

(c) Each party state shall require an applicant to satisfy all of the following to obtain or retain a multistate license in his or her home state:

(1) Satisfies the qualifications for licensure or renewal of licensure of the home state, as well as all other applicable state laws.

(2) Satisfies either of the following:

a. Has graduated or is eligible to graduate from a licensing board-approved registered nurse or licensed practical nurse prelicensure education program.

b. Has graduated from a foreign registered nurse or licensed practical nurse prelicensure education program that (i) has been approved by the authorized accrediting body in the applicable country and (ii) has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program.

(3) Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the native language of the applicant, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening.

(5) Is eligible for or holds an active, unencumbered license.

If a party state takes adverse action, the state shall promptly notify the administrator of the coordinated licensure information system.

The administrator of the coordinated licensure information system shall promptly notify the home state of any adverse action by a remote state.

(e) A nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, and shall include all nursing practice as defined by the practice laws of the party state in which the client is located. - (4) Whether the applicant is currently participating in an alternative program.
- (b) A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

- (1) The nurse may apply for licensure in advance of a change in primary state of residence.
- (2) A multistate license may not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.
- (d) If a nurse changes his or her primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state shall convert to a single state license, valid only in the former home state.

(Act 2019-102, §3.)

Section 34-21-124

Additional powers of party state licensing boards.

- (a) In addition to the other powers conferred by state law, a licensing board shall have the authority to do all of the following:
- (1) Take adverse action against the multistate licensure privilege of a nurse to practice within that party state.
- a. Only the home state shall have the power to take adverse action against the license of a nurse issued by the home state.
- b. For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.
- (2) Issue cease and desist orders or impose an encumbrance on the authority of a nurse to practice within that party state.
- (3) Complete any pending investigations of a nurse who changes his or her primary state of residence during the course of such investigations. The licensing board may also take any appropriate actions and shall promptly report the conclusions of any investigations to the administrator of the coordinated licensure information system. The administrator of the

coordinated licensure information system shall promptly notify the new home state of any actions.

(4) Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(5) Obtain and submit, for each applicant for a multistate license, fingerprint or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks, and use the results in making licensure decisions.

(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

(7) Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking the adverse action.

(b) If adverse action is taken by the home state against the multistate license of a nurse, the multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against the multistate license of a nurse shall include a statement that the multistate licensure privilege of the nurse is deactivated in all party states during the pendency of the order.

(c) Nothing in this compact shall override the decision of a party state that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of his or her participation in an alternative program.

(Act 2019-102, §3.)

Section 34-21-125

(c) All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications with the reasons for the denials, and nurse current participation in alternative programs known to the licensing board, regardless of whether the participation is deemed nonpublic or confidential under state law.

(d) Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

(e) Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

(f) Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board may not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

(1) The commission is an instrumentality of the party states.

(2) Venue is proper, and judicial proceedings by or against the commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent the commission adopts or consents to participate in alternative dispute resolution proceedings.

(3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

(b) Membership, voting, and meetings.

(1) Each party state shall have and be limited to one administrator. The head of the state licensing board for each party state, or his or her designee, shall be the administrator of this compact for that state. An administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

All documents considered in connection with an action shall be identified in the minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the administrators or order of a court of competent jurisdiction.

(3) The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

Section 34-21-127

Rulemaking authority.

(f) The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment to a rule.

(g) The commission shall publish the place, time, and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings shall be recorded, and a copy of the recording shall be made available upon request.

(2) Nothing in this section shall be construed as requiring a separate hearing on each rule. Proposed new rules or amendments to existing rules may be grouped together for the convenience of the commission at hearings required by this section.

(h) If no one appears at a public hearing, the commission may proceed with the adoption of a proposed rule.

(i) Following a scheduled hearing date, or by the close of business on the scheduled hearing date if a hearing was not conducted, the commission shall consider all written and oral comments received.

(j) The commission, by majority vote of all administrators, shall take final action on a proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

(k) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in this compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the commission, before the end of the notice period. If no challenge is made, the revision shall take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

Section 34-21-128

Oversight, dispute resolution, enforcement, etc.

(a) Oversight.

(1) Each party state shall enforce this compact and take any action necessary and appropriate to effectuate the purposes and intent of this compact.

(2) The commission shall receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in a proceeding to the commission shall render the judgment or order void as to the commission, this compact, or promulgated rules.

(b) Default, technical assistance, and termination.

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the adopted rules, the commission shall do all of the following:

a. Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission.

b. Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the membership of the defaulting state in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date

of termination. A cure of the default does not relieve the defaulting state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate membership shall be given by the commission to the governor of the defaulting state and to the executive officer of the licensing board of the defaulting state and each of the party states.

(4) A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission may not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party shall be awarded all costs of litigation, including reasonable attorneys fees.

(c) Dispute resolution.

(1) Upon request by a party state, the commission shall attempt to resolve disputes related to this compact that arise among party states and between party and nonparty states.

(2) The commission shall adopt a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(3) In the event the commission cannot resolve disputes among party states arising under this compact:

a. The party states may submit the issues in dispute to an arbitration panel, which shall be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

b. The decision of a majority of the arbitrators shall be final and binding.

(d) Enforcement.

(1) The commission, in the reasonable exercise of its discretion, shall enforce this compact and any rules adopted pursuant to this compact.

(2) By majority vote of the administrators, the commission may initiate legal action in the federal district in which the commission has its principal offices against a party state that is in default to
